

# Salt Dough Finger Labyrinth

recipe from allrecipes.com photo from deerandfawns.com and i.pining.com

## Here's what you need:

- 2 cups flour
- 1 cup salt
- 1 cup cold water
- Optional: Marble, paint, spray sealant or mod podge

## Here's what you do:

1. Mix flour and salt together in a bowl. Slowly mix water, a few tablespoons at a time, into the flour mixture until dough is smooth and easy to handle. Knead dough for 10 minutes and let rest for 20 minutes.
2. Roll out dough into shape of your choice about 1 inch thick and press labyrinth design into the dough- this can be done with a marble or your finger. If you are unhappy with the result, you can knead dough again, roll it out, and restart.
3. Once happy with labyrinth, carefully transfer cookie sheet lined with parchment paper. Bake at 250\* F until dough is hard and dry (about 2 hours, could be more if dough is thicker)
4. Once labyrinth is dry you can paint it. Once the paint is dry you can spray with sealant or paint with mod podge.
