

Bread+Belonging At St. Aidan's

St. Aidan's and Bread+Belonging received this grant for two purposes--to feed students, and to work on longer-term branding of our partnership together.

Because of COVID, finishing our partnership MOU didn't happen until Lent 2022, and since then, St. Aidan's is undergoing a long-term visioning process. We want to include students in branding, following the first visioning work, which means it will begin in October 2022. We have continued to feed students weekly, and that portion of the grant helped in the end of the Spring 2022 semester when we still needed to package food individually for the best COVID protocols.
