

YES Colorado to host The Episcopal Youth Event and Summer Mission

This summer our Young Episcopalians in Service (YES) team, will be hosting both a regular summer mission trip and our Diocesan Delegation to the Episcopal Youth Event (EYE). We are very excited about both trips and hope to have a strong group both in missions and in our EYE Delegation.

YES CO has been offering mission trips each summer for over a decade. These summer experiences provide space for youth to grow in their faith through working in community and in service. We are thrilled to include hosting the EYE delegation this summer to the 40th anniversary of The Episcopal Youth Event.

Not familiar with EYE? Here is the video from the last EYE in 2017 which was held in Oklahoma. EYE should have taken place in 2020 and we had a wonderful delegation ready to go. Unfortunately the event along with our delegation was canceled due to the pandemic. The leadership and planning team are so excited to finally be able to join the fun and community this summer. EYE is the second largest gathering of Episcopalians worldwide. This international event for youth will be held at the University of Maryland, College Park, this July 4-8. [EYE 2017](#)

Become a sponsor for our youth this summer? We are currently looking for sponsors for our EYE Delegation and mission trip. Sponsors will support our youth in prayer, conversation and fundraising. By sponsoring our mission group or delegation you will receive an itinerary with the daily schedule and events, prayer requests from the youth and leaders, and a full report from each groups members once they return. Enjoy being connected to the future of our diocese with this inside look at how our middle and high school youth are spending time this summer.

Please find all the details about both trips and our sponsorship program on our YES CO page of the diocesan website. [YES CO Webpage](#)
