

## REPORT ON GRANT FOR PAVING OF ST LAURENCE CHURCH, CONIFER DRIVEWAY

We asked for assistance in repaving our driveway because it had deteriorated to the point that members and prospective members were being discouraged from using it. Two local contractors were asked to bid the job using either recycled asphalt, which would require replacement in a few years, or hot asphalt which would last much longer if properly maintained. Despite the higher cost, we decided to go with the hot asphalt paving, for which Holland and Hurst had the lowest bid of \$35,037. Signage and a speed bump were added to the project at a cost of \$153. Work was completed in June 2023.

Funding for the project came from the following sources:

Contributions from parishioners: \$20,046

St Laurence General Fund: \$153

St Laurence Reserves: \$5,291

Front Range Regional Grant: \$9,700

The St Laurence family is extremely grateful for the assistance Front Range Region gave us in completing this project. It certainly makes our church more attractive to all comers, and does serve to remind us that we are a part of a larger community.
